Innovative Materials Handling Solutions

Gilbert Curry
Industrial Plastics

Gilbert Curry Industrial Plastics (GCIP) has been the driving force in providing industry leading materials handling solutions since 1982.

At GCIP we are fully committed to:

- providing a prompt response to all standard and customised requirements
- maintaining ISO 9001 quality control procedures
- compliance with environmental procedures & policy standards
- ensuring fitness for purpose in accordance with customer requirements
- after sales support

..... and we will always do what we can to ensure customer satisfaction.

Our hands on management approach and proven capability to meet the tightest delivery schedules has made GCIP a **preferred materials handling supplier to industry in the UK and Europe**. Working with blue chip manufacturers to small engineering companies – from one off fabrications to high volume production requirements.

GCIP's specialist development and production operation is supported by our **in-house CAD design, large bed CNC machining and water jet cutting technology** to ensure accurate and consistent production.

We'll do all we can to provide the perfect solution to your problem!

Foam inserts and castellations produced using multiple manufacturing processes to suit standard or bespoke containers and pallets.

MANUFACTURING CAPABILITIES

- CNC routing
- Fabrication
- Pressed & laminated
- Water jet cutting
- Supported by full 3D CAD development

MATERIALS

- EPDM
- Polyethylene foam (multiple densities: eg 30kg, 45kg, 60kg+)
- Polyurethane

Water jet cut foam castellations

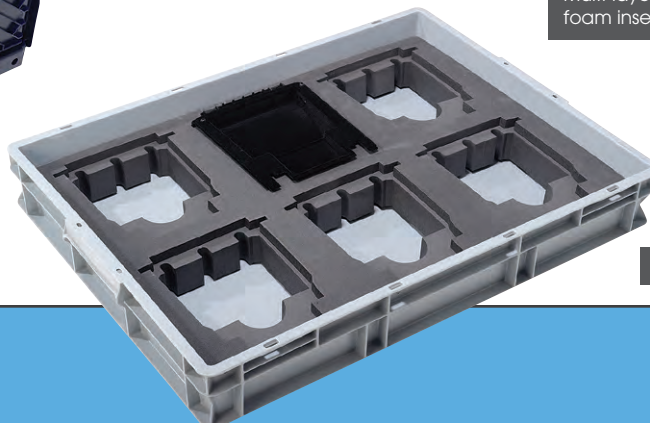

Water jet cut foam insert

Dual layer, removable foam castellations

Water jet & fabricated foam insert

CNC knifed foam insert

Pressed PE foam inserts & castellations

Multi-layered pressed & fabricated PE foam inserts for bulk handling pallet box

CNC routed & fabricated
polypropylene dividers

Customised dividers are manufactured in-house from a wide range of materials including polypropylene, polyethylene, premium grade fluted polypropylene board (in a variety of colours) and other structured core sheets. Additionally, our enhanced soft touch Pro-Tect Board material offers class 'A' protection for painted, polished, chrome and acrylic capped finishes.

Dividers can be fitted to standard or customised plastic containers, pallets or bespoke plastic fabrications.

MANUFACTURING CAPABILITIES

- CNC knifed
- CNC routed
- Foam lined protection

MATERIALS

- Fluted polypropylene
- Polyethylene
- Polypropylene
- Pro-Tect Board (our enhanced soft touch material for 'A' face part protection)
- Triplex® (structured core panel)

CNC routed

Fluted polypropylene dividers

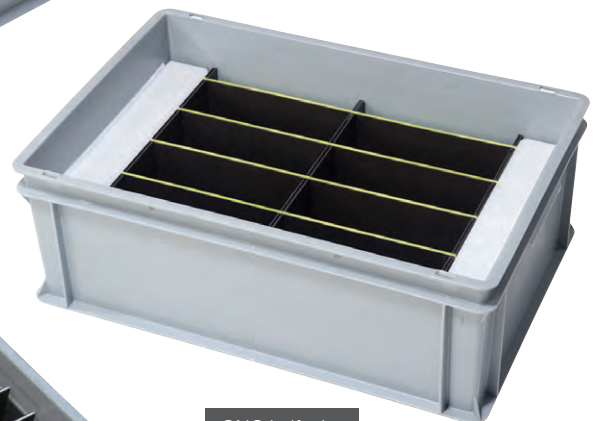

CNC routed polypropylene dividers
with sequentially numbered cells

CNC knifed

Pro-Tect Board dividers

CNC knifed

Textile Inserts

Custom made solutions manufactured from specialist textiles for padded bags, container inserts, covers, cases, strap assemblies and modular pouches designed to store, protect and transport. Textile solutions are ideal when weight and packing density is a priority.

MATERIAL OPTIONS

- PU / Nylon
- Microfibre
- PVC

Vacuum Formed Solutions

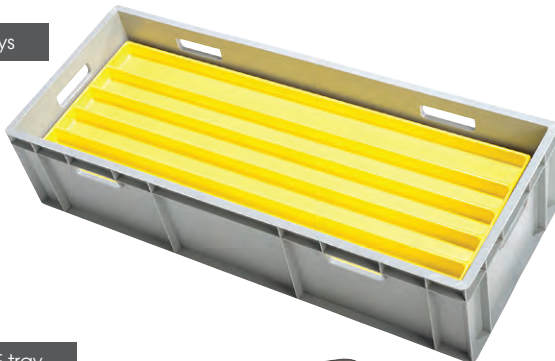

Vacuum formed trays, lids and container inserts for a wide variety of transit packaging and handling solutions used throughout industry.

Our maximum forming capability is up to 3500mm x 1500mm and up to 600mm deep. Material thicknesses from 200 microns up to 15mm. Prototype and production tooling, CAD design, CNC programming and part assembly managed in-house by our experienced team.

MATERIAL OPTIONS

- ABS
- HDPE
- HIPS
- Polycarbonate
- PETG

Multi-layered HIPS trays

1200mm x 1000mm HDPE tray

Close tolerance ABS tray

ABS compartment tray with custom PETG lid

Fabricated Solutions

We can design and manufacture outer plastic containers to meet your exact specification – whatever the size, shape or quantity – and in a range of durable materials.

MANUFACTURING CAPABILITIES

- CNC machining
- Mirror welding
- Heat bending
- Hot air welding
- Hot melting
- Sonic welding

MATERIALS

- Polyethylene
- Polypropylene
- Fluted PP
- Triplex (structured core panel)

CNC machined dividers

Fabricated compartment insert for pallet box

Custom sized containers

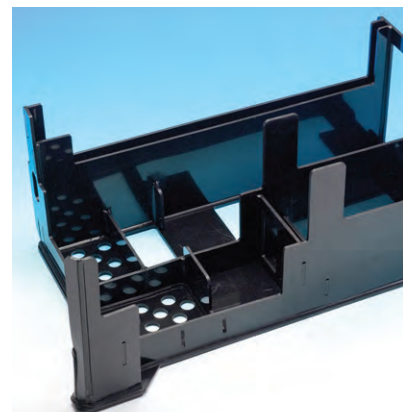

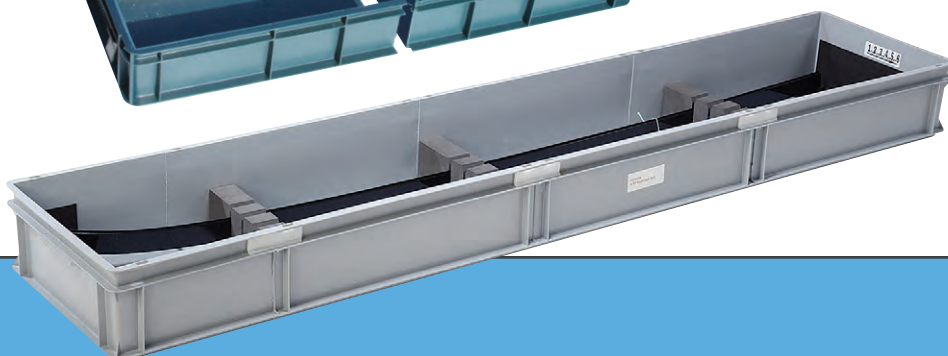

Fabricated PP compartment trays for use with eg. steel pallets

Fabricated container with Pro-Tect Board dividers

Extended mirror welding

CNC machined, fabricated and hot air welded PP kitting box

Manufacturing innovative packaging solutions since 1982

What our customers say

"GCIP have consistently provided high quality containers and products at competitive prices, they react quickly to any requirement we have and always meet our delivery requirements."

"We believe in partnerships rather than just customers and suppliers. GCIP fits in with our strategy perfectly, working hand in hand to develop a long lasting relationship - we have complete confidence that our needs will be met without exception."
